Edit text

- Go to the Dashboard and choose Pages (or Posts if you want to tryout in your Sandbox).
- Place the cursor over the page title and you will see a context menu. Click on EDIT.

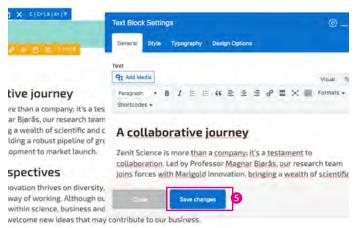

3 Choose between FRONTEND EDITOR or stay here in the BACKEND EDITOR.

4 The princip for backend and frontend editor are the same: When you place the cursor over the text you want to edit a green block will appear. Now hit THE PENCIL and go with editing the block element.

5 Edit and don't forget to save your changes!!!
