Størrelse **2** 3616x2033

1 The JPG image on the left is cropped to a 16:9 format and is 768 kB in size.

2 The image's physical dimensions/size are 3616 x 2033 pixels.

On the website, we don't use images wider than 1200 pixels, so there are many kilobytes to save if an image is downscaled and compressed.

1 Go to img2go.com/compress-image

2 Click on "Choose File" – or drag the image into the blue window.

bio64_title-no-spaces.jpg
bio64_title-no-spaces.zip

3 Select Best Quality.

4 Choose the file format:

- a) JPG = a photo or illustration with many colors/shades.
- b) PNG = vector illustration/graphic with uniform color areas.

5 Choose width: 600, 900, or 1200 px.

6 Click the START button.

7 Download the compressed image when the compression process is complete.
